Just What the Doctor Ordered!

Why was the Hebrew Old Testament written without any vowels while the Greek New Testament is peppered with these spirited breath sounds? Did you know that there is the same number of amino acids, the protein building blocks of life, as there are letters in the Hebrew Aleph-Bet? What sentences could the building blocks of our proteins be spelling? Have you ever wondered why the English Alphabet is in that order?

(It's not because of the song.) Would you like to know why **i**'s and **j**'s are dotted or how to decode the mystery hidden in the order of the **Ten Commandments** of how to keep them? What cryptic symbol is formed by the breastworks of Jerusalem's walls? What about **DNA**, **666**, **Stigmata**, and the **Bible codes**? If you have ever wondered about these things or what "**hep, hep, hurrah**" and "**yada, yada, yada**" really mean, and if you would like to get friendly with the Hebrew Aleph-Bet along the way, then this is the book for you.

Aleph-Bet Soup is a unique and exciting approach to the basic Hebrew and Greek biblical text. . . . You have heard the saying, "If you are sick or weak in body, eat a bowl of chicken soup." But I say, if you are weak or sick in the spiritual realm, consume Aleph-Bet Soup for a delight to your soul that will bring complete healing to your inner man. Dr. Thurston's brilliantly composed book is a well-balanced meal of spiritual vitamins and minerals, bringing nourishment and new life to your thirsty and hungry soul.

ALEPH-BET SOUP is a unique and exciting approach to the basic Hebrew and Greek biblical text. Dr. Thurston's easy-to-understand analysis brings to light a richly balanced King's Feast that beckons us to come and dine at the Master's table. In this book you will enjoy nibbling at the many examples of delicious revelations deciphered from the ancient texts, which you may have suspected were there, but that seemed to be tantalizingly just out of your reach.

As you read through these magnificent pages of deeply spiritual enlightenment, you will discover the awesome Word of God explained in a manner that is unequalled in the literary field of Bible codes. Dr. Thurston, utilizing his medical expertise and his unique and witty style of presentation, takes you step by step through his analysis of the Bible in such a delightful way that even a child could understand this subject matter.

You have heard the saying, *if you are sick or weak in body, eat a bowl of chicken soup*, but I say *If you are weak or sick in the spiritual realm, consume **ALEPH-BET SOUP** for a delight to your soul that will*

bring complete healing to your inner man. Dr. Thurston's brilliantly composed book is a well-balanced meal of spiritual vitamins and minerals, bringing nourishment and new life to your thirsty and hungry soul. It was inspired by his deep love and holy respect for the Word of God. The mini lesson below should help you understand one of many reasons why Dr. Thurston has a passion for the Holy Scriptures.

The Hebrew Aleph-Bet comprises twenty-two letters. This equates to the astonishing fact that the human body also is designated with twenty-two amino acids, all of which are vital to a healthy and productive life on earth. The biblical Hebrew text, which uses those twenty-two letters, is precisely written with a uniquely interwoven mathematical system; yet it retains a poetical and musical sound as you listen to a fluent speaker of the language. Its message is consistent throughout, as it invites the reader to linger at the Master's buffet table of spiritual insights, eating and digesting soul-satisfying thoughts of eternal life.

Finally, I encourage you, dear reader, to consume this wonderful, spiritual food with an attitude of open-mindedness and a hungry, searching heart. So, let us sit down together at the Master's table, relax, and sip our Aleph-Bet Soup. It is for you, because it is just what the doctor ordered!

In Psalm 34:8, the Lord admonishes us to taste of Him. "O taste and see that the Lord is good: blessed is the man that trusteth in him."

Prologue

Because my home had burned on February 7, the text of this book was finished at 8:00 PM, Sunday, March 19, 2000 AD in the basement of my parents' house. Only seven minutes later, at 8:07 PM that same Sunday evening, my mother, Erma Grace Thurston, went home to be with the Lord. She died following a long and heroic battle with a brain tumor. On the previous Tuesday she had suddenly stopped eating and by the next day she could no longer even swallow water. Jesus said that he was the Bread of Life, and the Living Water. Just as God breathed the Breath of Life into Adam at the first so also did my mother's breath leave her at the very end. As all my sisters and my father stood around her deathbed and watched mom breathe her last I was suddenly aware of the curse of the Law and the penalty of sin portrayed in her frail body expiring before me. It was then that the Spirit of the Living God came into that room and made the dead text of this book alive. He showed me that without her spirit my mother's body had become a consonant, a clanging, empty bell that we would commit back to the elements of the earth. She was as absent from her body as the Holy Spirit is from the dead pages of any bound book including the billions of Bibles scattered over the earth. But she is now present with the Lord though absent from her body. I would like to dedicate this book to my mother, Erma Grace Thurston born to E. Ray and Myrtle Jenkins August 1, 1929.

**Erma Grace (Jenkins) Thurston
1929-2000**

The text of this book or any book is as dead as it can be unless it is read aloud and committed to the active memory banks of living people. The Hebrew Old Testament deadly curse of the Law was written only in consonants without the breath sounds of any vowels. The last word of that consonant-filled Testament is “curse” חרם, CheReM. That is why the New Testament is written in Greek, a language with both consonants and living, breathing vowel sounds. The Old Testament contains the facts about what happened after the Fall of mankind and our penalty. The New Testament is about why we sin and how the payment of our legal debt was made in the death and resurrection of the Lord Jesus Christ. Mom and I will meet again not because we were religious, or because we read our Bibles but because we accepted into our dying bodies the gift of Eternal Life through Jesus Christ our Lord and became siblings with the first begotten from among the dead, *Jesus The Messiah*. I would invite you to join us at the end of time for a little get-together with our Creator, *Yeshua ha Mashiach*, ישוע המשיח.

This Prologue was originally written as the Epilogue in the first edition of this book because it illustrated the consummation of the spiritual vowels and the killing consonants. I have inserted it here at the beginning because it is also the heart of the matter and to show you what is in store ahead as you read. When you have finished this book, return to this page and revisit what you may have picked up along the way. The only two English letters with dots "i&j" appear below. Salvation and eternal life are bound together in these two little letters. Why these two English letters are still dotted today originated in the Hebrew "jot" of Matthew 5:18. This is only one of the many mysteries we will solve as we look into the Hebrew letters.

Introduction

Hebrew!? Oh No! Not Hebrew, Please!

Do not panic yet. Please remain calm! It is not necessary to become a Hebrew scholar to understand the Bible or this book. In fact, this book is mostly written in English, about English things by a Gentile. See! Right now you are reading that old familiar English your mother used to read to you when you were a child. The Hebrew writing at the top of this page is just the Hebrew *Aleph*-Bet. (Sounds nearly the same as the word *Alpha*-Bet, right?) It will not harm you in any way. These strange ancient symbols appear here and now in your life because there are some really neat insights into the Bible that become clear only in the word pictures of the Hebrew letters. These very English, very scientific and very inspiring insights found only in the pictures of the Hebrew letters may be easily appreciated without **any** further knowledge of the scary details concerning pronunciation, syntax, or any boring rules of grammar and the like. Rather than skipping over these foreign symbols as the lesser angels of our nature might encourage us to do, just think of the Hebrew squiggles as pictures and read the English words around them as captions and nobody will get hurt. Just step carefully over this next line of all the Hebrew letters and proceed into the timeless language of the Bible. They do not bite.
